**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on May 1, 2006 has been entered.

Claims 1-31, 33 and 34 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 32 and 35-39, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a

Art Unit: 1626

restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on December 10, 2004 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claims including all the limitations of an allowable product claim or rejoined process claim are presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Frank Hoffman on May 11, 2006.

The application has been amended as follows:

**In the Claims**

Cancel **claims 35-39**.

**Reasons for Allowance**

The following is an examiner's statement of reasons for allowance. Upon reconsideration, the rejection of the claims under the judicially created doctrine of obviousness-type double patenting over copending application 10/743,642 has been withdrawn. The disclosure in copending application 10/743,642 would not direct one skilled in the art to the instant claimed compounds because none of the examples in the copending application have a thiazole ring attached to the pyrrole ring nor is the thiazole ring given as an example of a  $R^4$  heteroaromatic ring (pages 10-11). Upon reconsideration, the rejection of the claims under 35 USC 103 over Sanfilippo et al. {U.S. Pat. 5,342,851} has been withdrawn since the thiazole ring is attached to the pyrrole ring at the 2-position instead of the 4-position as found in the instant claims and that a substituent as defined by instant variable  $R^4$  must be present at the 2-position of the thiazole ring. The

Art Unit: 1626

instant claimed compounds are distinguished from the compounds of Sanfilippo et al. and are therefore, allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
